

Original Research

You will design and carry out a research project on or related to your plot using good scientific method procedures. This report should be typed and quantitative data organized into computer generated tables and graphs. On your website, you have a page dedicated to the original research. EACH WEEK, you are asked to post an update about how the research is coming along. A minimum of 2 paragraphs and 3 pictures for each week. A formal lab report is also due at the end of your six week lab. This must be in a .pdf format.
